

Dare • Dream • Deliver

NURSES CONFERENCE 2023

**CSIR International Conference Centre
Pretoria**

17, 18, 19 AUGUST 2023

Join us for this year's Hybrid Nurses Conference

Leaders are also big dreamers. The theme this year challenges nurse educators, practitioners, and leaders to dare to dream for the profession, but then also to dare them to deliver on those dreams. The characteristics of the profession that allows us to deliver on dreams for the profession, are embraced in the word **DREAM**.

Over the last few years, the profession has proven its **D**etermination to continuously provide the best care and education; **R**esilience to persevere with innovative efforts to provide education and nursing care under difficult conditions; **E**nergy, competence, and willingness to drive change as **A**ccountable practitioners committed to quality education and practice; and the ability to **M**aintain and monitor practice and education standards.

Join us for an international and local line-up of experts both in practice and academia. Get ready to **Dare, Dream, and Deliver!**
